Description: One of the best alpine hunts in the world, the Bull Tahr and Chamois is a very challenging and ultimately rewarding hunt. Helicopters provide the best access points to the Bull Tahr and chamois and give a spectacular aspect of the seemingly desolate alpine region.

The mountainous terrain and high altitudes add to the thrill of the hunt!!

The Himalayan Tahr residing high up in the Southern Alps were introduced to the South Island of New Zealand in 1904 and have grown immensely in popularity due to their unique appearance, fine coat and the intensity of the hunt.

Cardrona Outfitters recommend hunting Tahr and chamois between May and July when they have their full winter coats. These animals make a beautiful full body mount which is very popular with our hunters a wonderful and unique edition to any collection.

A Red Stag 300 to 380 SCI, can be added for \$3,500.00 USD

Description:

The red deer has thrived in Ireland since the species arrived on the island after the last ice age and so it can be said that they are as Irish as the islanders; but it should be added that the English also introduced these animals to Ireland in the 19th century and it is from this time that the presence of deer in large numbers in this country more traditionally known for hunting woodcock and snipe dates.

Our territory, that of the Rock House estate, is very large since it extends over 17,000 hectares in one piece (including 3,500 hectares of forest) and over 4,500 additional hectares located between 10 minutes and an hour's drive from the accommodation.

The forests we have selected are known to be located in one of the best locations in Ireland for red deer hunting at rut time (usually between 20th September and 20th October each year).

It should also be noted that in Ireland, hunters are given the opportunity to obtain very beautiful trophies which are absolutely in no way inferior to the trophies regularly harvested in Eastern Europe; and that hunting pressure on our territory is minimal because only four or five animals will be taken each year during the hunting period.

Accommodation in Ballycroy by the sea and in a tastefully renovated hunting lodge with all the necessary comforts.

There is an application deadline of April 1, 2025.

Additional species available: Irish Ibex, fox, woodcock, snipe...please see outfitter for prices.

Description: Our motto is to always strive to be the best, giving clients an experience of a lifetime, and not only take from nature but also give back.

You will be assisted by highly-qualified professionals, professional hunters and trackers to ensure an exciting hunting experience you will never forget. They will guide you through your first steps in Africa and, if you are already an experienced hunter, they will accompany you on your expeditions – giving you all the information you need on getting that coveted trophy.

First preparation of trophies is carried out at our premises and then they are sent to South African taxidermy, where they go through the compulsory period of quarantine, parasite control and skin/trophy for dispatch to your taxidermist or home. Contact outfitter for a list of other animals available to hunt.

Upon arriving at Johannesburg International Airport, a staff member from Steele Game Safaris will be waiting for you to help with the weapons import process (as appropriate). You will then immediately travel by motorway (approximately 4.5 hours) to the lodge Sha'beni, where we will be waiting for you to start your Safari.

Description: Hunting the mighty polar bear is one of the greatest hunting adventures on the planet. We have partnerships with four Inuit villages to conduct our Polar bear hunts. Hunters travel by snowmobiles and qamutik sleds to the base camps. By law the travel for the hunt will be by dog teams and sleds. The base camps are basic heated wood cabins and the hunting camps out on the ice are heated insulated wall tent.

The hunts are conducted with a main Inuit guide and an assistant guide. Our guides are experienced and know the land extremely well. They have hunted the land for many years and know the best areas to find bears. We hunt for male bears with the average size in the 8'-6" to 10'-6" range. The hunts are scheduled in March and April. The weather this time of year in the North can be very cold. It is not uncommon to see temperatures drop to -25 Fahrenheit.

There is a 5% GST tax on the hunt value and the tag fee is \$1250. The trophy fee is \$1750. Currently legally hunted polar bear in Canada are not importable into the US.

Musk Ox is also available to hunt for \$11,500.

From our beginnings in the famed hills of Córdoba, we have expanded our reach carefully. This dedication and careful growth has allowed us to expand into the number one hunting outfitter in South America, with a total of 13 lodges in Argentina and Uruguay. The bedrock of each of our lodges is great bird hunting. Every lodge we operate follows exact and demanding standards of service. Whether you are interested in doves, ducks, pigeons, or mixed-bag hunting, the experience surrounding each adventure is designed to be thrilling, yet familiar.

In addition, being part of The Kautapen Group (www.thekautapengroup.com) collection of lodges provides our guests with the possibility of adding other sporting experiences to their trip, such as big game hunting with Red Stag Patagonia and fly fishing with Nervous Waters, all with the same high-end level of service that The Kautapen Group is known for.

Since those early years, the David Denies company has refined bird hunting, setting a new standard for service in the field. Coupled with our field services, our lodges provide award-winning service when judged on a scale usually reserved for fine international hotels. In other words, we have married the best of the outdoors with the best of the indoors, for a complete package designed to delight the international sportsman the first time, and every time. Thousands of discerning sportsmen have shot with us time and time again, and they keep returning to enjoy our incredible hospitality and great hunting programs. Description: Known as the “Ribeye of the sky”, this 3 day/3-night hunt will give you the perfect taste of adventure! Come explore thousands of acres of the flatlands of west Texas while you chase the beautiful Sandhill Crane.

This package includes lodging and breakfasts at a local hotel and hearty meals and cold drinks served by staff every evening in a beautiful, converted barn or we will take you to taste the cuisine at some of our favorite restaurants.

The Diamond Wing Outfitters staff and guides will give you a fun filled trip while you enjoy gorgeous sunrises and good company! Each evening your guide will provide you with the pin location of where the next day's hunt will be after they have scouted the best location to take our chances with this migratory species. Near or far we can drive up to an hour away to find the biggest group of cranes possible, but the spread will be set and ready for you when you arrive!

Typically, we hunt out of layout blinds or A-frame style brushed blinds along irrigation turrets or ditches. (“There ain’t much to hide behind in West Texas”)

Limits are 3 cranes daily and 5 lesser Canadians per hunter, with that said if you’re a bird hunter you know how migratory birds can be and sandhill cranes are a notoriously difficult bird to decoy. With our experienced crew we will use our knowledge to the best of our ability for you to enjoy the beautiful sight and sound of these cranes as they pile into the region for their migration farther south.

We typically finish hunting around 11am each day. This gives you ample time to get back to the hotel, grab lunch in town and take a nap before we join you for dinner and the hunting stories can commence. So, grab your shotgun and join us in and around beautiful Canyon, Texas for a trip to remember!

Description: One of the toughest alpine hunts in the world, the Bull Tahr is a very challenging and ultimately rewarding hunt. Helicopters provide the best access points to the Bull Tahr and give a spectacular aspect of the seemingly desolate alpine region.

The mountainous terrain and high altitudes add to the thrill of the hunt, though not for the faint hearted.

The Himalayan Tahr residing high up in the Southern Alps were introduced to the South Island of New Zealand in 1904 and have grown immensely in popularity due to their unique appearance, fine coat and the intensity of the hunt.

Cardrona Outfitters recommend hunting Tahr between May and July when they have their full winter coats. These animals make a beautiful full body mount which is very popular with our hunters a wonderful and unique edition to any collection.

Hunt can be upgraded to include Red Stag (\$3,500), Chamois and others for an additional fee. Hunter pays for helicopter at \$2,300 per hour. If adding a additional hunter the helicopter fee will not apply to other hunter if hunted together!

Stop by their booth to book your hunt of a lifetime!

Description: The red deer has thrived in Ireland since the species arrived on the island after the last ice age and so it can be said that they are as Irish as the islanders; but it should be added that the English also introduced these animals to Ireland in the 19th century and it is from this time that the presence of deer in large numbers in this country more traditionally known for hunting woodcock and snipe dates.

Our territory, that of the Rock House estate, is very large since it extends over 17,000 hectares in one piece (including 3,500 hectares of forest) and over 4,500 additional hectares located between 10 minutes and an hour's drive from the accommodation.

The forests we have selected are known to be located in one of the best locations in Ireland for red deer hunting at rut time.

It should also be noted that in Ireland, hunters are given the opportunity to obtain very beautiful trophies which are absolutely in no way inferior to the trophies regularly harvested in Eastern Europe; and that hunting pressure on our territory is minimal because only four or five animals will be taken each year during the hunting period.

Accommodation in Ballycroy by the sea and in a tastefully renovated hunting lodge with all the necessary comforts. Winner must bring 1 full paying hunter.

There is an application deadline of April 1, 2025.

Additional species available: Fallow, Irish Ibex, fox, woodcock, snipe...please see outfitter for prices.
